

## At home eye tests

We offer a home visiting service and sight test free of charge to those who are eligible for a free NHS eye test and cannot get to the High Street optician without help or assistance. There is a range of free spectacles for those who are entitled to NHS vouchers. In addition, a choice of frames from our extensive range is available from as little as £10. For those who are not eligible for a free eye test, but would like to have an eye test at home, we offer the same service at a small cost of £20, see our Private Service page for more details. Spectacles, complete with single vision lenses, are available from £49.95.
